# Embeddings And Extensions In Analysis

**sobolev embeddings, extensions and measure density condition** - sobolev embeddings, extensions and measure density condition piotr hajlasza,\*, pekka koskelab, heli tuominenb a department of mathematics, university of pittsburgh, 301 thackeray hall, pittsburgh, pa 15260, usa b department of mathematics and statistics, university of jyväskylä, p.o. box 35 (mad), fi-40014, finland

**metric embeddings and lipschitz extensions** - embeddings and extensions. the first problem is the bi-lipschitz embedding problem consists of deciding whether a given metric space  $(X, d_X)$  admits a "reasonable" embedding into some other metric space  $(Y, d_Y)$ , in the sense that there is a mapping  $f: X \rightarrow Y$ , such that if we compute **elementary embeddings and symmetric extensions a study of ...** - elementary embeddings and symmetric extensions a study of critical cardinals joint work (in progress) with yair hayut asaf karagila the hebrew university of jerusalem january 27, 2017 arctic set theory 3, 2017 asaf karagila (huji) elementary embeddings and symmetric extensions january 27, 2017 1 / 24 **metric embeddings and lipschitz extensions - math** - metric embeddings and lipschitz extensions lecture notes lectures given by assaf naor department of mathematics princeton university spring 2015 1 contents 1. introduction 2 2. preparatory material 5 3. the  $h$  older extension problem 8 4. kirszbraun's extension theorem 10 5. bourgain's embedding theorem 13 **conformal embeddings and simple current extensions** - conformal embeddings and simple current extensions 3 the maximal version of the above conjecture in the group case can be easily verified. for example when his trivial the conjecture follows from the fact that **extensions of embeddings - ucb mathematics** - decidability results our results extensions of embeddings in the 0 2 turing degrees. antonio montalb an. u. of chicago nanjing, may 2008 joint work with rod downey, noam greenberg and andy lewis. **extensions of embeddings below computably** - extensions-of-embeddings problem for ais the restriction of this latter problem to the case  $m=1$ . hence, in terms of computational complexity, the extensions-of-embedding problem for alies between the 9-theory and the 89-theory of a. for a recent survey of embeddability results in the turing degrees see [mon]. de nition 1.1. **out-of-sample extension of graph adjacency spectral embedding** - these oos extensions were based on a least-squares formulation of the embedding problem, arising from the fact that the in-sample embeddings are given by functions of the eigenvalues and eigenfunctionsosset and priebe(2008) considered a different oos extension for mds. **graph embedding and extensions: a general framework for ...** - the general framework for dimensionality reduction through graph embedding and its extensions is also assessed by examing assumptions behind the constructions of various similarity measures of different algorithms. based on the insight of this **word embeddings and their use in sentence classification tasks** - word embeddings for sentence classification tasks july 2016 propose some extensions for the model which might be a good proposition for future work. ii. word embeddings i. motivation it is obvious that every mathematical system or algorithm needs some sort of numeric input to work with. however, while images and **the extension problem in complex analysis ii; embeddings ...** - the extension problem in complex analysis ii; embeddings with positive normal bundle. by phillip a. griffiths. the extension problem we have in mind is simply to extend certain "analytic objects" from a compact analytic submanifold  $X$  of a complex manifold  $W$  to a neighborhood of  $X$  in  $W$ . **out-of-sample extension of graph adjacency spectral embedding** - showed that all of these embeddings have oos extensions that arise as the solution of a generalized eigenvalue problem. we refer the interested reader tolevin et al.(2015) for a practical application of this oos extension. more recent approaches to oos extension have avoided altogether the need to solve a least squares or eigenvalue problem by ... **a word embeddings informed focused topic model** - edge, most of the existing models with word embeddings are extensions of a full lda model, and neither use the embeddings as information for the prior, like wf-lda, nor do they use the embeddings with topic focusing. short text topic models analysis of short text with topic models has been an active area with the development of social networks. **40 ieee transactions on pattern analysis and machine ...** - corresponding kernel and tensor extensions. index terms—dimensionality reduction, manifold learning, subspace learning, graph embedding framework. Ç 1introduction techniques for dimensionality reduction [1] in super-vised or unsupervised learning tasks have attracted much attention in computer vision and pattern recognition.
